

Technology to Bridge the Skills Gap in Finishing

Learn how companies are using technology to save legacy knowledge and train a new workforce.

Tuesday, September 12

8:00am-9:30am

C34: Room E253D

DeGeest addresses what manufacturers can do to close the skills gap using technology. Learn 1st hand finishing experiences on how to capture tribal knowledge, empower current workforce, and successfully recruit and retain the next generation.
